

Action Taken Report on Institutional Ambience

IQAC collected and analyzed student, parent and alumni feedback on the ambience of the institution and handed over the feedback report to the Principal. Based on the feedback the institution took the following measures to improve the general atmosphere of the college.

- A new tiled pavement was constructed by the PTA connecting the main building and B- Block thus ensuring convenience of the Pedestrians.
- A new monthly cultural event – “CreatEVE” was designed and implemented to provide a platform for students to showcase and enhance their talents and skills.
- In order to provide an aesthetically pleasing environment to conduct the “CreatEVE” programme, landscaping of the area near the college library was undertaken by the teaching staff.
- Truss work of the main block is progressing. This initiative will help in creating additional space for the conduct of examinations.
- The old seminar hall of the college was renovated as an ICT enabled conference hall with a media and lecture capturing system. The hall was furnished with the support from PTA.
- New almirahs were purchased using PTA funds to accommodate newly purchased books.
- A water cooler was installed in front of the library.
- A new policy document on teaching and learning, focussing on the measures to inculcate higher order thinking among students will be prepared by the members of IQAC during the academic year 2022-23 and will be submitted for college council ratification.
